 Bengaluru

CAREER OBJECTIVE

Manual and Automation Test Engineer trained in Selenium WebDriver, TestNG, Postman API Testing, Core Java, and SQL. Strong understanding of STLC, SDLC, test case design, regression testing, and defect life cycle. Designed and executed 50+ automated test scripts using the Page Object Model (POM) framework and performed defect tracking using JIRA.

TECHNICAL SKILLS

Testing Concepts:

STLC, SDLC, Test Case Design, Test Scenario Creation, Test Execution, Regression Testing, Defect Life Cycle, RTM, Black Box Testing

Automation Testing:

Selenium WebDriver, TestNG, Page Object Model (POM), XPath, Locators, Explicit Waits

API Testing:

Postman, REST API, GET, POST, PUT, DELETE, JSON Validation, Status Code Verification

Programming:

Core Java, OOPs Concepts, Exception Handling, Collections Framework

Database:

SQL, CRUD Operations, Joins, Constraints, Aggregate Functions

Tools & Platforms:

JIRA, Git, GitHub, Eclipse, IntelliJ IDEA, MySQL

EDUCATION

Bachelor of Technology (BTech) – Computer Science Engineering

Oriental College of Technology, Bhopal

2020 – 2024 | CGPA: 7.4

PROJECTS

DemoWebShop Automation Framework

Technology Used: Selenium WebDriver, TestNG, Core Java

- Developed automation framework for DemoWebShop web application
- Designed and executed 50+ automated test scripts covering login, registration, cart, and checkout modules
- Created and maintained 10+ Page Object Model (POM) classes
- Implemented reusable methods and handled waits using Explicit Wait
- Performed regression testing and reported defects

RFID Library Management System

Technology Used: Python, RFID, MySQL

- Developed a library management system integrated with RFID technology
- Designed database schema and implemented CRUD operations using MySQL
- Built backend logic for book tracking and user management

CERTIFICATIONS / TRAINING

Software Testing Training (Manual & Automation Testing)

QSpiders, Bengaluru | 2025 – Present

- Trained in STLC, SDLC, Test Case Design, Defect Life Cycle
- Hands-on practice in Selenium WebDriver with TestNG framework
- API Testing using Postman
- SQL for database validation
- Core Java fundamentals for automation scripting

SOFT SKILLS

- Result-oriented and adaptable team player with a strong learning attitude
- Good communication and active listening skills
- Effective time management and task prioritization
- Ability to work collaboratively and take constructive feedback
